WORK EXPERIENCE

37 Military Hospital,	Accra, Ghana
<i>Obstetrician Gynaecologist</i>	<i>May 2022- December 2024</i>

Strengthened community outreach services and implemented community-based approaches through questionnaires to enhance maternal healthcare access.

Improved on antenatal education for clients attending the clinic as well as promoting awareness of health services and resources for pregnant women

Enhanced the quality and availability of essential and emergency obstetric care services for underserved populations.

Advocated for affordable maternal healthcare to improve the sexual and reproductive health of women.

ECOWAS Military Intervention in The Gambia (ECOMIG),	Barra Camp, Gambia,
<i>Company Medical Officer,</i>	<i>April 2021-May 2022</i>

Delivered healthcare services at Essau District Hospital, treating over 800 cases of infectious and non-infectious diseases.

Worked in the Obstetrics and Gynecology Department, performing over 500 vaginal deliveries and over 200 elective and emergency cesarean sections, contributing to the survival of more than 700 mothers and their children.

Supervised and led a team of 50 personnel to fully vaccinate nearly 150 healthcare workers and

over 1,500 individuals in nearby communities against COVID-19.

Organized regular educational and training workshops on COVID-19 for clients and team members, focusing on properly using PPE and addressing misinformation about the virus.

Ghana Armed Forces,
Station Medical Officer,

Tamale, Ghana
April 2019 - March 2021

Assessed and implemented patient management plans, overseeing the construction of a new surgical theatre through corporate sponsorship. This initiative facilitated the management of surgical emergencies, saving the lives of over 500 patients with surgical complications.

Secured the purchase of an ultrasound machine for early trimester scanning, enabling the detection of fetal anomalies and early interventions, ultimately saving the lives of over 1,300 pregnant women and their unborn babies.

Led a facility with over 120 staff members, implementing public health projects, including COVID-19 vaccination campaigns and community education initiatives.

Organized regular health screening exercises, providing free medications to over 2,000 individuals.

Conducted training workshops for staff to ensure alignment with current healthcare practices, including sessions on Basic Life Support (BLS) and Advanced Cardiovascular Life Support (ACLS).

Police Hospital,
Senior House Officer,

Accra, Ghana
November, 2018 - May, 2019

Delivered comprehensive medical care to patients, diagnosing and managing various medical conditions.

Provided emergency medical services, including stabilization and referral of critical cases.

Conducted routine health check-ups and managed chronic disease cases to improve patient outcomes.

Collaborated with multidisciplinary teams to implement healthcare policies and improve service delivery.

Korle Bu Teaching Hospital
House Officer,

Accra, Ghana.
April 2018– October 2018

Rotated through key clinical departments, including Internal Medicine, Surgery, Pediatrics, and Obstetrics & Gynecology, gaining comprehensive training in patient care and management.

Performed detailed patient assessments, formulated diagnoses, and implemented treatment plans

under supervision.

Assisted in surgical procedures and provided perioperative care to ensure optimal patient outcomes.

Conducted health education sessions for patients and families to promote understanding of treatment plans and preventive measures.

Maintained accurate patient records and contributed to case presentations during clinical rounds.

PROFICIENCY

Field Experience: Reproductive Health Education, Community Health Assessments,

Software: SAS programming, Learning Management System, Microsoft Office, R, SPSS.

LEADERSHIP/ VOLUNTEER EXPERIENCE

Society for the Study of Women's Health (SSWH)

Researcher,

The Gambia

April 2021 - May 2022

Participated in research on adolescent and maternal health using a gender-transformative approach, involving over 300 adolescent participants. This research contributed to developing policies that improved healthcare for female teenagers.

Organized and facilitated training sessions and workshops on sexual and reproductive health for adolescents, promoting informed decision-making and health literacy.

Conducted educational campaigns in rural communities on the dangers of Female Genital Mutilation (FGM), raising awareness among over 1,000 individuals and fostering a community-wide understanding of its harmful effects.
