

JENNIFER ATAA TETTEH

Nutrition Professional | Registered Dietitian - Ghana

Email: jennytet168@gmail.com || Phone: +233240557571 || Address: Cape Coast - Ayensu, UCC [||LinkedIn](#)

PERSONAL PROFILE

First Class Honors graduate in **Nutrition and Dietetics** with interdisciplinary training in clinical nutrition, public health, and community-based research. I have strong experience working with vulnerable populations, including older adults, school-aged children, and low-income communities across multiple districts in the Cape Coast Metropolis. My research interests examine how **nutrition, food systems, and social environments influence health throughout the life course, with a growing emphasis on healthy aging, functional status, and community-based interventions for older adults.** Dedicated to contributing to impactful translational research that advances the well-being of aging populations.

EDUCATION

University of Cape Coast, Ghana

Bachelor of Science in Clinical Nutrition and Dietetics

August 2020 - August 2024

- Graduated with **First Class Honors (CGPA:3.7/4.0)**
- **Dean's Awardee**, Best Level 400 Student (2023/2024)
- **Class Representative**, Department of Nutrition and Dietetics (2022-2024)
- **Relevant coursework:** Nutritional Biochemistry, Diet Therapy, Biostatistics, Public Health Nutrition, Food Safety and Quality Control, Nutrition Research Methods.

Nkawkaw Senior High School, Ghana

Home Science Programme

2018-2020

RESEARCH EXPERIENCE

Research Assistant – Department of Nutrition and Dietetics, UCC

February 2026 - Ongoing Project:

Food Insecurity-Related Coping Strategies Among Individuals and Households in Sub-Saharan

Africa: A Systematic Review

- Collaborating with MSc and PhD students in Nutritional Science from Oklahoma State University and Purdue University on this review.
- Screened studies using Covidence as part of the systematic review workflow.
- Supported protocol development and registration on PROSPERO, ensuring adherence to systematic review standards and methodological rigor.
- Currently contributing to manuscript development through synthesis of literature findings and manuscript writing.

Research Assistant - Department of Nutrition and Dietetics, UCC

November 2025 - Feb 2026

Project: *Comprehensive Nutrition Status Assessment of the Elderly in the Cape Coast Metropolis*

- Lead a team of research assistants while working with a PhD candidate.
- Support development of data collection tools and fieldwork protocols.
- Coordinate community entry, participant recruitment and elderly household visits.
- Assist with anthropometric, dietary, and functional assessments of older adults.
- Oversee transcription, data quality checks, and preliminary analysis using SPSS and qualitative approaches.
- Support stakeholder engagement and preparation of study documentation and progress reports.

Co-author: *Alcohol consumption and academic expectations stress as correlates of mental well-being among university students in Ghana* (August 2026, manuscript prepared for publication)

Research Assistant - Department of Nutrition and Dietetics, UCC

May 2025-August 2025

Project: *Exploring School Food Environment of Children and Adolescents in Ghana to Improve Food Safety, Health, and Educational Outcomes.*

- Applied mixed method research: questionnaire design, data collection and focus group discussion with students, teaching and non-teaching staff.
- Supported qualitative data management, transcription and preliminary analysis.
- Developed skills in field coordination, stakeholder engagement, and research documentation.

Undergraduate Research Project – Department of Nutrition and Dietetics, UCC

2024

Project: *Nutritional Status and Eating Behaviors of School Age Children in the Cape Coast Metropolis*

- Secured ethical and institutional approvals from the Ghana Education Service (GES), school authorities, parents, and child participants.
- Designed and administered structured questionnaires to assess children's dietary patterns and

anthropometric data.

- Analyzed data using SPSS and interpreted findings to evaluate determinants of nutritional status.
- Prepared a comprehensive research report and presented key findings to faculty.

CLINICAL AND PROFESSIONAL EXPERIENCE

Reviewer - Journal of Agriculture, Food Systems and Community Development (JAFSCD) **June 2026**

Teaching Assistant - Department of Nutrition and Dietetics, UCC **2024 - Present**

- Support undergraduate students (100) through tutorials and academic guidance in nutrition-related coursework. (Courses : Nutrition Assessment Methods, Diet and Diseases and Food Product Development)
- Assist in explaining course content, reviewing assignments, and reinforcing key concepts to enhance student understanding and performance (Class of 100 students).

Cape Coast Teaching Hospital – Cape Coast, Ghana - Intern **2025**

- Conducted nutrition assessments, diagnoses, and monitoring of patients referred to the dietetics unit.
- Rotated through Pediatrics, ICU, Surgical, Medical, Gynecology, and OPD units.
- Collaborated with multidisciplinary teams to design and implement patient-centered interventions.

Pampaso Children's Hospital – Kumasi, Ghana- Student Nutritionist/Dietitian **July-Sept 2023**

- Conducted MUAC measurements and managed MAM/SAM cases using supplementation.
- Developed follow-up strategies with parents for sustained child nutrition support.

Komfo Anokye Teaching Hospital - Kumasi, Ghana- Student Nutritionist/Dietitian **July-Sept 2022**

- Assisted in case briefings and patient counseling.
- Rotated through ICU, Burns, Surgical, Pediatric, and Gynecology units.
- Observed and contributed to nutrition care for patients with chronic and acute conditions.

Agogo South Hospital - Ashanti Region, Ghana- Student Nutritionist/Dietitian **July-Sept 2021**

- Conducted nutrition assessments for children at Child Welfare Clinics (CWC).
- Delivered nutrition education to pregnant, lactating, and non-lactating mothers.
- Assisted in therapeutic diet preparation (F-75 and F-100) for malnourished patients.

RESEARCH INTERESTS

- Life-Course Nutrition and Healthy Aging
- Nutrition, Cognitive Health, and Neurodegeneration
- Social and Environmental Determinants of Aging
- Community-based and Translational Research
- Public Health Nutrition and Non-Communicable Diseases

- Food Systems, Food Environments and Policy

SKILLS

Research & Data Analysis

- Mixed-Methods Research SPSS, Kobo Collect, Questionnaire Design, Qualitative Coding & Transcription, Thematic Analysis.
- Research Ethics, Human Subject Consent
- Data Cleaning, Biostatistics and Data Interpretation

Clinical Nutrition

- Nutrition Assessment & Diet Therapy
- Counseling across Pediatrics, Adults and Critical Care
- Community Nutrition Support & Health Promotion

Technical & Professional

- Food Safety Standards, Dietetics Communication, Public Health Nutrition Education
- Leadership, Team Coordination, Report Writing, Stakeholder Engagement & Public Speaking

ICT Proficiency

- Microsoft Office Suite, Data Cleaning and Visualization Tools (Power BI)
- Digital Field Data Collection Tools

PROFESSIONAL DEVELOPMENT

Ghana Academy of Nutrition and Dietetics - Continuous Professional Development Webinar *Sept 2026*

- **Title :** *Maintaining an Up-to-Date Professional Practice Portfolio : Role of the Nutrition and Dietetic Professional*
- **Title :** *Routine Clinical and Community Practice Data : A Goldmine for Conference Abstracts and Scientific Manuscripts* *April 2026*

Datapluzz IT Consulting Company – Datapluzz Graduate Internship | Ohio - USA *May - July 2026*

Data Analytics Track - Final Project Title: *Global Food Insecurity Analysis*

- Completed a graduate internship focused on data analytics, visualization and business intelligence using excel and Power BI
- Developed an end-to-end Power BI analytics project using global food security and socioeconomic data from Food and Agriculture Organization (FAO) and World Bank Sources.
- Prepared and integrated multi-source datasets using Power BI and Power Query, with AI- assisted support during data preparation and transformation.
- Developed a relational data model and interactive dashboard with analytical measures and visualizations to compare food insecurity across countries and regions and identify trends, regional disparities and patterns.

- Analyzed patterns in food insecurity alongside socioeconomic and contextual factors, including inflation, population groups, income groups, and food insecurity severity.

MENTORSHIP & LEADERSHIP

Undergraduate Research Mentor – Department of Nutrition and Dietetics, UCC Jan 2026 - Ongoing

Project: *Association Between Dietary Quality and Depression among Persons with Type 2 Diabetes Mellitus In Ghana: A Cross-Sectional Study*

Project: *Association Between Food Insecurity and Diabetes Distress among Persons with Type 2 Diabetes Mellitus In Ghana: A Cross-Sectional Study*

- Providing academic supervision and mentorship to undergraduate students conducting a cross-sectional research study.
- Supporting students in study design, literature review development, and refinement of research methodology.
- Guiding ethical research practice, data collection procedures, questionnaire development, and basic interpretation of findings.
- Assisting in strengthening students' academic writing, critical thinking, and research reporting skills.

Class Representative - Department of Nutrition and Dietetics

(2022/2024)

- Represent student academic and welfare concerns, facilitate communication between faculty and students, and support departmental academic coordination. of Nutrition and Dietetics (2022/2024).

SRC Hall Female Basketball Team - Team captain

(2023/2024)

- Led team organization, training sessions, and match preparation while promoting teamwork, discipline, and leadership.
- Contributed as an active team member in achieving a podium finish in inter-halls basketball competition, 3rd Place.

National Sprite Ball Competition (Girls Division) – Participant (2019).

CONFERENCE ATTENDED

Ghana Academy of Nutrition and Dietetics - 3RD Conference Of Nutrition and Dietetics - Ghana | **August 2026**

- An **attendee** and **Presenter** of a research poster titled “*Association Between Food Insecurity and Depression among*

Persons with Type 2 Diabetes Mellitus in Ghana: A Cross-Sectional Study”

- Engaged with nutrition experts and peers.

PROFESSIONAL MEMBERSHIPS

- Ghana Academy of Nutrition and Dietetics (GAND) - 2025
- NASPA CCMA Women's Committee - Member (2024-2025)
- Giveback Foundation - Community Nutrition Volunteer (2022- Present)
- Ignite Youth Empowerment Initiative - An Obuobia Foundation Member (2025)
